Re: FOIA Request

Dear Mr. Gottesman:

Pursuant to 5 U.S.C. 552, the United States Freedom of Information Act (FOIA), I request documents regarding the Toxic Substances Control Act (TSCA).

Specifically, I request the following: Copies of all notices submitted under Section 5 of TSCA for the chemical substance, 1,3,2-dioxathiolane, 2,2-dioxide (CAS No. 1072-53-3, herein the "Substance"), including, but not limited to, premanufacture notices, and low volume exemption and low releases and low exposures exemption notices under 40 CFR 723.50 ("Notices"). Your response should include copies of the original Notices and their attachments, as well as any amendments or modifications to the Notices.

- Copies of all consent orders, significant new use rules, and significant new use notices concerning the Substance.
- Copies of all internal and external correspondence regarding the Notices, including, but not limited to, supporting documents provided by the individuals or entities that submitted the Notices.
- Copies of all test data submitted with the Notices and all reports, analyses, and studies of the Notices, including, but not limited to, the engineering/exposure SAT reports for the Notices.

To the extent that any of the requested information contains information that is exempt from disclosure under FOIA, I request that such information be redacted or otherwise withheld from your response, with the non-exempt portions of the responsive documents provided unchanged. For each partial or totally withheld document, please generally describe the information withheld and identify the exemption relied upon.

The maximum processing fees threshold of \$100 was inserted as a placeholder. That does not mean that any additional amounts will not be paid on request. Please contact me if the expected cost of responding to this request will exceed \$100 to arrange for payment.
